

## In Brief

### **Netgem iPhone app**

Netgem (Stand 36) has announced an iPhone application for Monaco Telecom. Monaco Telecom plans to introduce the new mobile application in June 2010, enabling iPhone-owning customers to control the interactive Monaco TV service powered by NetgemTV via their phone. Netgem is using the Forum to launch next-generation smartphone remote control apps and over-the-top content applications. The NetgemTV IPTV technology won the award for Best IPTV Service Delivery Platform at the IPTV World Series Awards last night.
